 - 3) To train the students to create ladder diagram from process control descriptions.
- 7. Learning Outcomes:**
 - 1) Apply PLC Timers And Counters for the control of industrial Process.
 - 2) To make the students understand PLC functions. Data handling functions.
 - 3) To train the students to create ladder diagram from process control descriptions.
- 8. Expert Narration:** The focus of the lecture was on improving the PLC & Automation programming skills of the students in order to prepare them for various interfacing. To make the students how device to which PLC input and output modules are connected. To create ladder diagram from various process control descriptions.

About Workshop: akses RCBD was originally developed by Ajay Kadam as a part of a research done on nonlinear analysis and design of reinforced concrete frames. The software was developed using finite element method and the design part was based on American Concrete Institute's (ACI) Code. Later in 1991 it was modified according to Indian Standard (IS) Code. A number of residential, commercial, institutional and industrial buildings have been designed using this software in the Ajay Kadam Associates' structural design office for last 29 years.

Objectives:

1. To help understanding the drone techniques.
2. To acquire basic knowledge about drones.

Outcomes

1. Students will understand the drone technology.
2. Students will understand drone techniques.

Information of workshop in brief-

Mr. Kondhadeshmukh , he has more than 10 years 'of experience in drones. He conducted project of ISRO. The skill and techniques shared to the students.

Value addition through workshop –

A drone is a flying robot that can be remotely controlled or fly autonomously through software-controlled flight plans. Drones are integrated with embedded systems and work in conjunction with on-board sensors and GPS systems. And building hands-on drone projects is a great way to learn this innovative technology. Students learn those things.

Workshop Report

Name and organization of Guest speaker- Mr. Wavare Amol , Director, Precise CAD Solutions, Baramati.

Date of Five day's workshop- 12-04-2024 to 16-04-2024

Staff Coordinator- Prof. Pondkule S.M.

Objectives:

1. Understand the fundamentals and benefits of Model-Based Design and Computational Fluid Dynamics.
2. Familiarize with the MBD and CFD workflow and its components.

Outcomes:

1. Ability to use Ansys and related tools for modeling and simulation.
2. Creation and validation of dynamic system models.
3. Skills in setting up, running, and troubleshooting fluid flow simulations.

Information of workshop in brief-

Mr. Amol Wavare , he has more than 20 years 'of experience in Academics and CAD/CAM/CAE. He conducted project of various industries. He shared his skills and techniques to the students.

Value addition through workshop –

Improved collaboration skills through group projects and peer interactions. Experience working as part of a team to achieve common objectives and deliver high-quality simulations. Development of a mindset geared towards continuous learning and improvement in CFD technology.

Sub: Permission for Five day workshop

Respected Sir,

With reference to above mentioned subject, Sharadchandra Pawar College of Engineering and Technology is going to arrange Five day's workshop for BE Mechanical Engineering students on the Subject "MBD and CFD" will be delivered by Mr. Wavare Amol who is working as a Director, Precise CAD Solutions, Pune. The purpose of workshop is to interact with students. It also covers the content as a part of curriculum mentioned below.

Objectives:

1. Understand the fundamentals and benefits of Model-Based Design and Computational Fluid Dynamics.
2. Familiarize with the MBD and CFD workflow and its components.

Outcomes:

1. Ability to use Ansys and related tools for modeling and simulation.
2. Creation and validation of dynamic system models.
3. Skills in setting up, running, and troubleshooting fluid flow simulations.

Kindly permit us to conduct the five day's workshop.

Dear Sir,

As you may be aware, Shri Someshwar Shikshan Prasarak Mandal's, Sharadchandra Pawar College of Engineering & Technology, Someshwarnagar is one of the most reputed Engineering Institutions in Savitribai Phule Pune University and known for its excellent record in academics and co-curricular activities. The College offers Bachelor degree course in Mechanical, Civil, Electrical, and Computer.

We conduct the workshop for our students so as to get interact with the drone technologies and it also covers certain objectives as follows;

Objectives:

1. Understand the fundamentals and benefits of Model-Based Design and Computational Fluid Dynamics.
2. Familiarize with the MBD and CFD workflow and its components.

Outcomes:

1. Ability to use Ansys and related tools for modeling and simulation.
2. Creation and validation of dynamic system models.
3. Skills in setting up, running, and troubleshooting fluid flow simulations.

We kindly request you to accept our invitation and guide our students on the "MBD & CFD"

Please convey the date as per your convenience.

Thanking You,

Yours Truly
